Q1

Rate the Training (1 being worst and 5 being best):

☆ 5

Q2

What did you like about the training?

Crystal clear explanation of JVM, GC, and performance tuning skills!

Q3

What things can be improved in the training?

Hands-on exercise.

Q4

Your Name (optional):

Damon

Rate the Training (1 being worst and 5 being best):

☆ 5

Q2

What did you like about the training?

explanation on each issue is very detail and easy to understand, very helpful

Q3

What things can be improved in the training?

explanation and problem solving on assignments cases on the next day

Q4

Your Name (optional):

Wulang Risky Aprianto Saputra

Q1

Rate the Training (1 being worst and 5 being best):

☆ 5

Q2

What did you like about the training?

Very professional and organised training material.
Very slow and good explanations supported with real world situations.
good break periods to observe and reflect.

Q3

What things can be improved in the training?

Nothing much. All good. Was very interactive session.

May be ask the participants what role they are currently in. what system or applications JVM they are supporting or looking at tuning .
If interested may be some participants can learn or interact with each other outside of the training building the ycrash community.

☆ 5

Q2

What did you like about the training?

It was very good, easy to understand, and had a wide range of topics covered.

Q3

What things can be improved in the training?

if a training video can be re-access for future reference, that would be great!

☆ 5

Q2

What did you like about the training?

Everything

Q3

What things can be improved in the training?

a small knowledge check test at the end of the course would bring more confidence to everyone who attends the course. Just a thought though.

Q1

Rate the Training (1 being worst and 5 being best):

☆ 5

Q2

What did you like about the training?

- Common patterns for GC / thread / heap issues with real world examples
 - Demo buggyapp that can simulate various performance problems so you can capture dumps and learn from it
-

Q3

What things can be improved in the training?

may want to use platform independent format for training material e.g pdf instead of docx/pptx
